ASIA LE, BSN, RN

PRODUCT MANAGEMENT | CLINICAL CARE MANAGEMENT SYSTEMS | MEDICARE & MEDICAID OPERATIONS

New York | linkedin.com/in/asiaqle

PROFESSIONAL SUMMARY

Clinical operations professional and former oncology RN with hands-on experience in GuidingCare and Epic supporting Medicare Advantage, D-SNP, Medicaid and commercial lines. Led cross-functional workflow initiatives with compliance, appeals and authorization teams that scaled across an 80-person department, served as EMR lead during a CMS audit, and represents the department in an API-integrated EHR implementation. Translates clinical and regulatory requirements into clear, usable processes and communicates them to leadership, compliance and frontline teams. Quantitative background in statistics and Python from NYU Tandon; co-author of a peer-reviewed scientific publication.

CORE COMPETENCIES

Requirements Documentation | Workflow & Process Design | Cross-Functional Initiative Leadership | Stakeholder Communication | Data Analysis & Trend Identification | CMS Audit Readiness | Medicare Advantage, D-SNP & Medicaid | Prior Authorization & Utilization Management | GuidingCare | Epic | ServiceNow | Python (Data Analysis) | Statistics

PROFESSIONAL EXPERIENCE

Clinical Evaluation Manager (Utilization Management) | VNS Health, New York, NY **Mar 2025 – Present**

- Led a cross-functional initiative with leadership, compliance, appeals and the authorization department to design a decision-tree workflow for out-of-network reviews; secured senior leadership approval and drove adoption by 50 reviewers across an 80-person department, sustaining 100% compliance on expedited and Part B requirements and reducing review delays by 30%
- Identified that a same-day review workaround was rewarding providers for marking routine requests as expedited; rolled out job aids and training on the corrected workflow, supervisor outreach to top providers and contact center attestation, with staff noticing about 90% fewer unnecessary expedited requests
- Represent the department on an API-integrated EHR implementation, translating clinical review workflows into business requirements and end-user feedback for the delivery team
- Selected by senior leadership as EMR lead during the health plan's CMS audit, supporting pre-audit case review, escalating documentation risk and presenting records to federal auditors in real time
- Improved clinical-record retrieval time by 50% and reduced audit findings by 10%, earning an Initiative Award nomination; contributed to a dashboard tracking out-of-network utilization to inform network growth decisions
- Mapped the end-to-end prior authorization intake process across fax, phone and portal channels; identified root causes of late-entry authorizations and recommended a phased improvement plan with KPIs for turnaround, data accuracy and intake completeness
- Review 12–15 cases daily in GuidingCare for Medicare Advantage, D-SNP (VNS Health Total) and Medicaid (SelectHealth) members against CMS and state criteria (NCDs, LCDs, MCG, eMedNY), meeting 7-day standard and 72-hour expedited timeframes

Registered Nurse, Medical Oncology | Long Island Jewish Medical Center, Northwell Health **Apr 2023 – Mar 2025**

- Served as charge nurse, coordinating staffing, assignments and workflow in real time across a high-acuity oncology unit
- Precepted 5 new-hire nurses and 1 student extern with 100% unit retention; created orientation and clinical tip sheets that standardized onboarding
- Coordinated care for up to 6 oncology patients per shift across nursing, medicine, pharmacy and case management, documenting in Epic and reconciling record discrepancies

Medical Scribe | CityMD Urgent Care, Long Island, NY **2020 – 2021**

- Helped redesign intake and discharge workflows supporting 200+ daily patient visits, reducing wait times by 20%

EDUCATION

Master of Science in Nursing, Nursing Education (In Progress) | Stony Brook University School of Nursing

Bachelor of Science, Nursing | New York University, Rory Meyers College of Nursing

Bachelor of Science, Biomolecular Sciences in Engineering | New York University, Tandon School of Engineering (coursework: Statistics I & II, Introduction to Programming in Python)
